PRESS RELEASE

Campion Marine to build for Infinyte

Campion Marine Inc. of Kelowna, British Columbia is proud to announce that it has begun manufacturing boats for Infinyte Marine, also located in Kelowna.

Infinyte Marine Inc has launched a significant new line of electric boats that creates a new category of watercraft; whisper quiet, pollution free, affordable and very easy-to-use. The Infinyte brand Electric Touring Boat and Electric Utility Boat both feature a simple “turn of the key and go!” electric propulsion system, Joystick steering and lots of comfort features.

The Infinyte Marine line consists of the 9’ 12, the 12’ 13 and the 14’ 14 models.

Campion’s vision of producing greener boats is what attracted Infintye Marine to open discussions regarding building their product line. Shane Green, president of Infinyte Marine said, “Campion Marine’s green philosophy and environmental stewardship is what initially attracted us. Add to that, a glowing reputation for quality and a dedicated and highly talented staff, and it became a perfect fit for Infinyte”.

Brock Elliott, Campion Marine’s General Manager said, “We are honored that Infinyte Marine has the confidence in Campion to produce their unique products. Their product line definitely fits within our green philosophy.”

Campion is committed to leading our industry into building the greenest boats by using the best and most ecologically friendly products. Campion is the first manufacturer to build all of its boats with Ashland’s Envirez® resin, a renewably sourced, bio-derived resin, that uses a substantial amount of soybean oil and corn derived ethanol in its formulation.

Campion Marine, a family owned business, has a strong diversified product line up, consisting of its Chase high performance boats, Explorer sport utility boats, Allante runabouts and cruisers and Svfara wake and surf tow boats. Even with strong representation in more than 30 countries, Campion continues to grow its dealer network.

For further information, contact Brock Elliott phone 250-765-7795 or email askus@campionboats.com.
